PHONE PE BUSINESS ANALYSIS SUMMARY

Scenario-Based Recommendations

Insights and recommendations
tailored to each scenario

Choose a scenario for recommendations:

Scenario_1: Decoding Transaction Dynamics on PhonePe 

Scenario 1: Transaction Dynamics

Key insights

- Telangana has the highest transaction volume at ₹1,083,054,846,381,984.
- 4.0 records the strongest transaction activity at ₹2,649,652,004,480,478, while 1.0 shows the weakest.
- Peer-To-Peer Payments is the dominant payment type with ₹6,929,711,333,251,518 in transaction volume.

Recommendations

- Prioritize Telangana for targeted promotions, retention offers, and expansion plans.
- Double down on campaigns during 4.0 and investigate the underperformance of 1.0.

- Focus product and service improvements around Peer-To-Peer Payments to maximize customer value.
