PHONE PE BUSINESS ANALYSIS SUMMARY

Scenario-Based Recommendations

Insights and recommendations tailored to each scenario

Choose a scenario for recommendations:

Scenario_2: Device Dominance and User Engagement Ana ▼

Scenario 2: Device and Engagement

Key insights

- Maharashtra has the highest registered user base with 101,895,990,354 users.
- Xiaomi dominates active-user share with 15,652,127,106 users.
- Meghalaya shows the strongest engagement ratio at 174.36 app opens per registered user.

Recommendations

- Invest more in onboarding and retention efforts for Maharashtra to convert registrations into sustained engagement.

- Optimize app experience and partner support for Xiaomi to strengthen device-level engagement.
- Use Meghalaya as a benchmark for successful engagement strategies and replicate its playbook in other states.
