PHONE PE BUSINESS ANALYSIS SUMMARY

Choose a scenario:

Scenario_1: Decoding Transaction Dynamics on PhonePe

1. Decoding Transaction Dynamics on PhonePe

Scenario

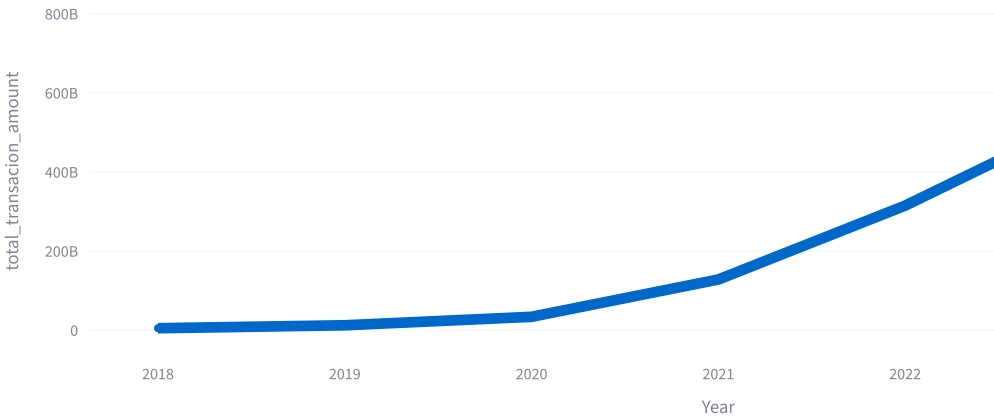

PhonePe, a leading digital payments platform, has recently identified significant variations in transaction behavior across states, quarters, and payment categories. While some regions and transaction types demonstrate consistent growth, others show stagnation or decline. The leadership team seeks a deeper understanding of these patterns to drive targeted business strategies.

State-Wise Transaction Data - Yearly

Select State:

andaman-&-nicobar-islands

Year vs Total Transaction Amount (andaman-&-nicobar-islands)

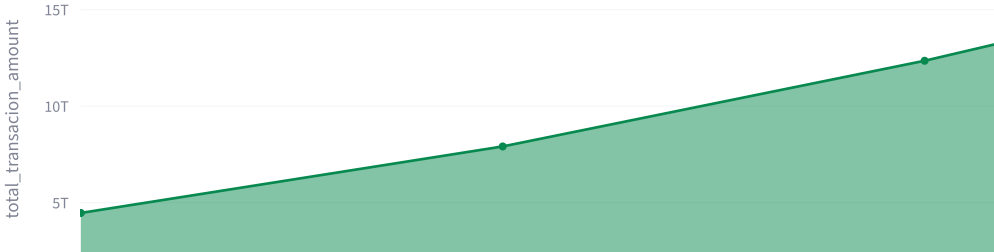

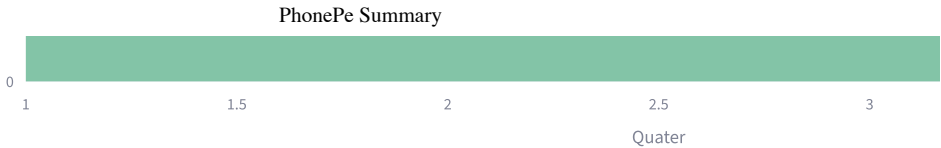

Transaction Data - Quarterly each Year

Select Year:

2018

Year vs Total Transaction Amount (2018)

Payment Type Analysis
